## Slimbridge Dowsing Group

*Founded by Peter Golding*

*Affiliated with the British Society of Dowzers*

### Issue 41

January - March 2019

#### Chairman's Report.

Well, what an interesting year it has been.

We are all members with not just a keenness to learn more about dowsing but the truths of the wider world around us. For me this year has certainly fulfilled those maxims.

It's been a year where we have explored many facets of dowsing and its application within the world of today. The year started with an insight into mediumship then progressed through details on past lives, crystals, sound healing and exploration of local buildings and archaeology.

I hope my story of my journey with my introduction to dowsing has sparked an interest in your own life and how, what we do in the dowsing group, can equally be applied.

Jon's Talk on building a house with the aid of dowsing showed us what a tool dowsing can be to the challenges even life projects can bring. Christopher Strong visited again to deliver a workshop on the daily use of dowsing so in many senses we have gone full circle

The talk on Stonehenge I felt was fascinating and really showed us that the knowledge in the past was in many ways more advanced than ours is today. This was further enhanced by the fascinating insight into the Stone Rows that are sited throughout Europe by Peter Knight.

I hope that those of you who came for my talk on the relationship of Earth Energy and Sacred Land with the subsequent field trip can see how we and the application of dowsing can open up the wonders of the places we live. We found Leys, Earth chimneys, Vents & Columns; energy portals of differing types and finally at the end, an Earth Anchor point, which clearly needs more investigation and exploration from us.

We now look to the opportunities of 2019 and a programme which we hope will build on the exciting and informative year that's gone before and a taster for which is enclosed.

So I would like to say thank you for your trust and faith in me over the last year and for continuing that trust through this next year, the newcomer to the group but who now feels that he is with kindred spirits and learning rapidly.

Paul Syrett

# Group Programme - January and Beyond!

## **Saturday 12<sup>th</sup> January – Dowsing Skills, Protection, Practical's and Application**

Following on from the successful, meeting we had last year and the requests from you, our members to run it again, we thought we would set the intension again for a good Dowsing year by holding a Q&A practical's session.

We will run small workshops, a group **Question & Answer** session and a myriad of other elements to help us all learn more about dowsing. So please tell us if there are any specifics you want covered or to learn.

## **Saturday 9<sup>th</sup> February – Dowsing and Guidance – Lisa Fullbright Cossey**

Lisa Fullbright Cossey is an energy healer and channel and as such works a great deal with various forms of guidance. These forms of guidance can range from kinaesthetic knowing, through intuition to clairvoyant vision and speaking through channelled guidance. Such guidance brings communication with earth energies, the elemental beings and nature spirits, the angelic realms, the worlds of archetypes and deities, and the levels of consciousness that are within us all seeking to guide and bring healing.

In this talk she will explore some of these many forms of guidance and how they all relate to dowsing. She will consider the question of what is actually happening within a person's subtle energy field and psyche when they dowse and suggest that dowsing and guidance are really the same thing.

Lisa is a healer, a channel and a registered homeopath. Her training includes The School of Channeling, The College of Healing, Eagles Wing College of Contemporary Shamanism and The Barbara Brennan School of Healing. She lives and works in Stroud in Gloucestershire and sees clients for one to one sessions as well as doing monthly channeling and healing evenings in Stroud and Bristol.

Lisa loves to teach and is an experienced speaker with a dynamic and fun style and a wealth of knowledge and experience to share. She is now

in the process of launching 'Bright Lights' a school which will run courses in channeling, healing and spiritual development.

## **Saturday 9th March – A full classification of Leylines, Earth Energies and Nodes – Rory Duff**

For the first time ever, a classification has been compiled that contains several different categories of Leylines, Earth Energies and their Nodes. How these categories are differentiated is explained and how the different groupings were arrived at. Anyone interesting in dowsing Earth Energies will find that using this classification will help them understand what they are finding and be able to more easily express that to other people. Of particular interest is how one set of energies was found to be particularly problematic for life on Earth. Living or working on these energies is not easy and can even be harmful to health. Long term exposure to these frequencies seems to also bring serious illness and disease.

Rory Duff currently runs the Bristol Dowzers Society and has been dowsing for 35 years. He has dowsed over 10,000 miles of earth energy lines on site over the area of North Wiltshire and produced the 1st ever Earth energy line map over an area of 70km by 50km. In 2012 he was awarded the British Society of Dowzers Billy Gawn prize for his research into Earth Energies.

For more information on Rory's work refer to his website [www.roryduff.com](http://www.roryduff.com)

## **The 2019 Year ahead**

**Animal Communications with Suzy Shiner**

**Elementals my Dear Watson with Adrian Incedon Webber**

**Healing - Energy, Spirit and You How energy healing applies to you - Paul Syrett**

**Tortworth Arboretum, Tree dowsing, Comunining & Songs with Terry Dellbridge**

**Albion Dreamtime – Enchanting the Isle of Dragons with Peter Knight**

**Belas Knapp Long Barrow with Liz Poraj-Wilczynska**

**Plus, Field trips, locally and afar and we hope a vibrant social scene widening the conversations between us.,**

## News

As discussed at the AGM, we are staying at Kingshill House, Dursley for the foreseeable future for all out monthly meetings which as you know are now on a Saturday. The complete address is:

Kingshill House, Kingshill Lane, Dursley, Gloucestershire GL11 4BZ

Prior to our talks, from 9:45, we are offering tuition before any meeting start and following the meeting, we are reinstating our “pub Lunches” at the Ranchers Steakhouse, on the road opposite. Starters start at £4.95 and mains at £9.95.

We would like to thank Terry and Teresa Dellbridge for stepping in to become our Treasurer/Membership secretaries and to thank Barbara for her many years as Treasurer/Membership secretary and Andrew as Vice Chairman for their help, which has been invaluable in continuing to take the group forward.

Lastly we would like to thank Lawrence Wadsworth for becoming our Assistant Librarian.

## A Helping Hand Still Required

We have Special Interest Groups for Archaeological, Earth Energies, Health and Water dowsing. Barry Goldring continues to run the Archaeological Group, but we need leaders for the others. Please contact a committee member if you're interested, details as below.

## Obituary - Christopher Strong

It is with great sadness that we bring you the news that Christopher Strong died very suddenly on Saturday, 1 December.

Christopher was an extraordinary man, a remarkable dowser and also a highly regarded and much-loved teacher. Always very generous with his knowledge, Christopher was a stalwart supporter of the BSD and a frequent visitor to Slimbridge Dowsers

**Meetings at Kingshill House Dursley on Saturday's 9:45 for 10:30 am start unless otherwise stated. £3 members, £5 guests.**
